Rishabh Jain

Data Engineer | MSc Artificial Intelligence & Robotics UH
United Kingdom

Summary

AI and Robotics graduate (Distinction) from the UK, with a Bachelor's in Computer Science Engineering from India. My academic foundation is strengthened by hands-on experience in machine learning, robotics, and intelligent systems. I've led multiple student-led technical societies, gaining strong project management and team leadership skills. I hold certifications in advanced programming, ethical hacking, and entrepreneurial strategy, showcasing a multidisciplinary approach to technology. Outside of academics, I stay engaged in sports and networking, bringing a well-rounded and collaborative mindset to every project I undertake.
